

Press Release

Munich, June 12, 2015

Knorr-Bremse voted “Best Brand” in the commercial vehicle industry**For the tenth time in succession, Knorr-Bremse has won the title “Best Brand in the Commercial Vehicle Industry” in the “brakes” category.**

Before an audience of prominent representatives of the German commercial vehicle industry, Bernd Spies, Chairman of the Executive Board of Knorr-Bremse's Commercial Vehicle Systems division, Knorr-Bremse Systeme für Nutzfahrzeuge GmbH, stepped up to receive the award at the Goldbergwerk event location in the Fellbach suburb of Stuttgart.

“We are very proud of the endorsement that this award represents,” said Spies, “particularly because in this case it is our end customers who are providing an objective and benchmarked external evaluation of our performance. The satisfaction of our customers is the key measure of success for Knorr-Bremse. Winning this award for the tenth time in succession in what is also our company's 110th anniversary year is a great motivator for us to keep on creating genuine added value for our customers. And that is the guiding principle behind everything we do.”

Once a year, publishers EuroTransportMedia (ETM) invite readers of their three commercial vehicle magazines to vote for the best commercial vehicles and brands in the industry. An endorsement from this expert audience is widely respected as a seal of quality for the safety and reliability of the winning brands and products, as well as being an important indicator of the state of the brand's image.

The **Knorr-Bremse Group** is the world's leading manufacturer of braking systems for rail and commercial vehicles. For more than 110 years now the company has pioneered the development, production, marketing and servicing of state-of-the-art braking systems. In the rail vehicle systems sector, the product portfolio also includes intelligent entrance systems, HVAC systems, power conversion systems, control components, and windscreen wiper systems, as well as platform screen doors, friction material, driver assistance systems and control technology. Knorr-Bremse also offers driving simulators and e-learning systems for optimum train crew training. In the commercial vehicle systems sector, the product range includes complete braking systems with driver assistance systems, as well as torsional vibration dampers, powertrain-related solutions and transmission control systems for enhanced energy efficiency and fuel economy.
